

POČÍTÁNÍ

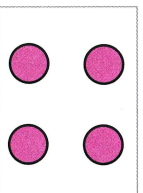

Vybarvi vždy stejnou barvou políčka **se stejným počtem obrázků**.

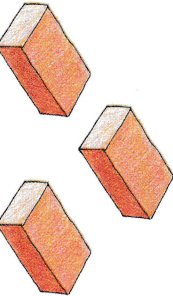

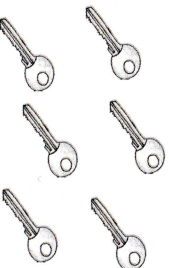

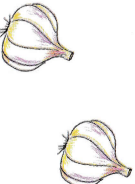

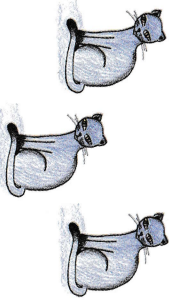

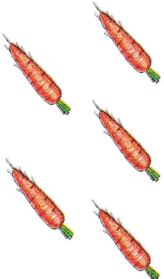

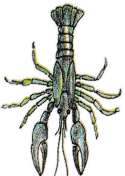

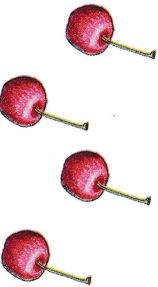

Např. **modrou barvou slunečnice** a všechna další, kde je stejný počet obrázků jako slunečnic, tedy 5.

Kolik puntíků je ve vzoru? Vybarvi **červeně** políčka s méně obrázky a **modře** s více obrázky.

VZOR:

Kterých obrázků bylo stejné množství jako puntíků ve vzoru?
